

Salmon Homecoming 2007

Shadow of The Salmon. This graphic by Andy and Ruth Peterson of the Peterson Gallery (carvings@hctc.com) depicts salmon in the eternal cycle swimming in water--the life giver. Cattails serve as the filters of the world as the crane stands vigil and the frog moon hovers above. Stories tell of a time when Frog transformed into Moon to remind us of our responsibility to respect our Mother Earth.

Fifteenth Annual Salmon Homecoming Celebration
